

# “Multi-Ethnic Education Forum 2006 AICHI”

**Sun. 12<sup>th</sup> November, 2006,  
10:00am – 6:30pm  
Nagoya International Center  
Annex Hall  
Fee: 1,500yen (incl. material fee)**

**Let's actualize for foreign and ethnic school.  
Let's secure the right of education for foreign children.**

Tokai region have many foreigners, and the number keeps increasing. Also it becomes the society where multi-ethnic/cultural people live together.

The financial press said briskness of the regional economy is in favor of the foreign workers' employment.

Recently a lot of Brazilian schools that teachers use Portuguese as a native language have been established in the Tokai region.

The foreign schools play the important educational parts for foreign children. Because they can't gain public support (their system differ from school in Japan), either such school approach that the support for foreign school is important.

The Kobe forum that had been held on last September became an appeal to secure the right of education for "foreigners and ethnic minorities" who live in Japan.

On autumn 2006, we will held “Multi-Ethnic Education Forum 2006 AICHI” to introduce the current situation of foreign and ethnic school in Tokai region, to facilitate the interchange between these schools and to expand supporting network. We sincerely hope your participation in this forum.
